SUMMARY

Data Analyst with 4 years of experience in SQL-based data analysis, reporting automation, dashboard development, and data validation within delivery-driven environments. Strong hands-on expertise in SQL (joins, aggregations, window functions), Python (Pandas), Excel, Power BI, and Tableau. Experienced in handling datasets ranging from 3,000 to 50,000+ records, building KPI dashboards, performing exploratory data analysis, and ensuring data accuracy for stakeholder reporting. Proven ability to translate business requirements into structured analytical solutions and reproducible reporting workflows.

KEY SKILLS

Data Analysis & Analytics

- Exploratory Data Analysis (EDA)
- KPI Definition & Performance Tracking
- Trend & Anomaly Detection
- Root Cause Analysis

SQL & Data Handling

- MySQL (Joins, Subqueries, Aggregations, Window Functions)
- Data Extraction, Transformation & Validation
- Large Dataset Handling
- Query Optimization & Performance Monitoring

Visualization & Reporting

- Power BI Dashboard Development
- Tableau Dashboard Development
- Excel (Pivot Tables, Advanced Formulas, Power Query)
- Structured & Executive Reporting

Programming & Automation

- Python (Pandas, NumPy)
- Data Cleaning & Preprocessing
- Reporting Workflow Automation
- ETL Concepts (Foundational)

Collaboration

- Stakeholder Reporting
- Requirement Understanding
- Documentation & Audit Readiness
- Cross-functional Coordination

PROFESSIONAL EXPERIENCE

Tata Consultancy Services (TCS) – Bangalore

Data Analyst (System Engineer – Official Designation) | Dec 2021 – Present

- Performed **SQL-based** data extraction, transformation, and profiling on large **operational datasets** to support structured reporting.
- Processed and validated 10,000+ records per reporting cycle, ensuring accuracy and consistency before stakeholder delivery.
- Wrote and **optimized SQL queries** (joins, aggregations, window functions) to generate custom analytical datasets.

- Built and maintained structured **Excel-based trackers** and recurring reports for business and operational teams.
- Designed and maintained **Power BI dashboards** to track KPIs and performance metrics.
- Conducted **exploratory analysis** to identify recurring discrepancies and support corrective actions.
- Implemented **data validation** checks and reconciliation logic to ensure reporting integrity.
- Documented reporting workflows, data definitions, and query logic for repeatability and audit readiness.
- Collaborated with **cross-functional teams** to translate business requirements into **analytical outputs**.

Cheers Interactive Pvt. Ltd. – Mumbai

Analyst Intern (Data Reporting & Validation) | Jun 2021 – Nov 2021

- Supported **SQL-based data analysis** and reporting across market and product datasets.
- Conducted pricing and competitive trend analysis across 50+ products.
- Built **Excel-based performance models** used for internal and client-facing insights.
- Improved reporting efficiency by 25% through structured data organization and process optimization.
- Assisted in validating analytical outputs and documenting findings for repeatable workflows.

PROJECT EXPERIENCE (Portfolio Based)

Layoff Data Analysis – SQL & Python

- Cleaned and analyzed 3,000+ multi-source records.
- **Performed EDA** across industry, geography, company size, and time dimensions.
- Implemented **SQL window functions and aggregations** to identify layoff patterns and trends.

Airbnb Listings Analysis – Tableau

- Analyzed 50,000+ listings to uncover pricing, occupancy, and property-type trends.
- Built **interactive dashboards** enabling location-based and category-based exploration.

Sales & Survey Dashboards – Power BI

- Built **KPI-focused dashboards** using 200+ survey responses and multi-region sales data.
- Designed interactive visuals for performance tracking and decision support.

Bike Sales Dashboard – Excel

- Analyzed 5,000+ sales records using **Pivot Tables and advanced formulas**.
- Created interactive dashboards highlighting demographics and purchasing patterns.

Python Automation Script

- Developed **Python scripts to automate** file organization and data preprocessing.
- Reduced manual **data handling** effort by approximately 80%.

TECHNICAL STACK

SQL (MySQL) | Python (Pandas, NumPy) | Power BI | Tableau | Excel | Power Query |

Jupyter Notebook | GitHub | Data Validation | Documentation | ETL Concepts | Data Documentation

CERTIFICATIONS

- Data Analyst Certification – Udemy
- Power BI Certification – Skill Nation
- Google Data Science Foundation – Great Learning
- Google Analytics Certification
- Microsoft Excel Certification

EDUCATION

B.E. Mechanical Engineering

Saranathan College of Engineering, Trichy

CGPA: 8.03 / 10
